Seminar on intellectual property rights (IPR)

Date: 28.11.2017, 10:00-15:00
Place: Forskningsparken, Gaustadaléen 21, Oslo

Registration and more information on the seminar
Apply for a travel grant

Translation from research to value creation cannot be done without understanding immaterial property and how to protect it. How can we ensure that we capture and exploit ideas? How can we develop collaboration between academia and business? You are hereby invited to an educational day on IPR, organized through Centre for Digital Life Norway!

Career day 2018 – seeking one more volunteer!

We are looking for one more volunteer from our members for the organizing committee of next year’s career day. In order to cover the important areas of Digital Life, we encourage those who work with computation to volunteer. You will work together with PhD students and postdocs in biotechnology and medtech, and you will receive administrative support from Centre for Digital Life Norway.

This is a great opportunity to invite companies or industry representatives you think are particularly important and interesting within your field. You will have the possibility to be creative and innovative regarding the format, and you will gain invaluable experience with industry contact and event organization.

Please contact the research school coordinator if you are interested in participating:

Centre for Digital Life Norway award: Best blogpost in 2017!

If you are part of one of the Centre for Digital Life Norway projects, you can win a travel grant of kr 2000 for writing the best blogpost in 2017. You can write about your research, your recent visit with your collaborators, an interesting conference you attended, some scientific topic that fascinates you, etc.

Your piece should be posted on the centre blog, please contact your project manager if you need any help with the technical issues.
Important events in 2018

Scientific Writing Workshop
Dates: 5-7 March, 2018
Place: Bergen or Oslo

We repeat the success of this year’s writing course, and invite you to join us for three days of intensive writing. It will be tutored by Daniel Soule, and is organized in collaboration with the National Research School in Neuroscience.
More information will follow soon.
